

AIESEC INDIA

COMPENDIUM

Sub-document

Product Policies

The Product Policies subdocument covers the guidelines of the functioning in terms of market segregation and other aspects of ELD portfolios for AIESEC in India along with EwA principles.

1. OGX Exchanges

1.1 Outgoing Global Teacher (oGTe):

1.1. Outgoing Global Teacher (oGTe): Entities that are not operating oGTe portfolio cannot approve EPs for this operation.

1.1.1. No LCs of AIESEC in India can mark oGTe Approvals

1.1.2. If any EP from one of these entities wants to approve with a GTe opportunity, they will be redirected to a local entity that operates oGTe, which will handle the entire EP management, including contract signing and payment. The redirection will happen according to the following division:

1.1.2.1 EPs from Baroda, VVN and Indore will be managed by Ahmedabad.

1.1.2.2 EPs from Dehradun, Jodhpur, Nagpur and Noida will be managed by Delhi IIT.

1.1.2.3 EPs from Chandigarh, Ludhiana, Kolkata and Patiala will be managed by Delhi University

1.1.2.4 EPs from Amaravati, Chennai, Nellore, Bhubaneswar and VIT will be managed by Hyderabad.

1.1.2.5 EPs from Bhopal, Nashik, Navi Mumbai and South Mumbai will be managed by Mumbai.

1.2. Outgoing Global Talent (oGTa): Entities that are not operating oGTa portfolio cannot approve EPs for this operation.

1.2.1 The following are not operating oGTa portfolios in their entity for the year 2026.27:

1.2.1.1 Baroda

1.2.1.2 Bhopal

1.2.1.3 Dehradun

1.2.1.4 Delhi University

1.2.1.5 Ludhiana

1.2.1.6 MAHE

1.2.1.7 Navi Mumbai

1.2.1.8 Patiala

1.2.1.9 Nashik

1.2.1.10 Pune

1.2.1.11 VIT

1.2.2 If any EP from one of these entities wants to approve with a GTa opportunity, they will be redirected to AIESEC in India National Office

1.3. In case an entity approves one EP of a product that it is not allowed to operate, a fine at the same value of the exchange fee will be charged. This fee needs to be paid to the entity that should have done the approval

1.3.1. The entity receiving the money is responsible for paying the reconciliation of that exchange.

2. ICX Exchanges

2.1 ICX Opportunities

2.1. ICX Opportunities: An entity that is not operating a specific or any ICX portfolio cannot open opportunities for that operation in the Year of 2026.27. The MC will not open any opportunities on EXPA through its opportunities auditing team for that entity that does not have that specific product.

2.1.1 The following do not operate iGV in their entity:

- 2.1.1.1 Amaravati
- 2.1.1.2 Baroda
- 2.1.1.3 Indore
- 2.1.1.4 Nashik
- 2.1.1.5 Nellore
- 2.1.1.6 Noida
- 2.1.1.7 VIT
- 2.1.1.8 Vallabh Vidya Nagar

2.1.2 The following do not operate iGTa in their entity:

- 2.1.2.1 Amaravati
- 2.1.2.2 Bhopal
- 2.1.2.3 Ludhiana
- 2.1.2.4 Nashik
- 2.1.2.5 Patiala

2.1.3 The following do not operate iGTe in their entity:

- 2.1.3.1 Amaravati
- 2.1.3.2 Baroda
- 2.1.3.3 Bhopal
- 2.1.3.4 Dehradun
- 2.1.3.5 Jaipur
- 2.1.3.6 Kolkata
- 2.1.3.7 M.A.H.E
- 2.1.3.8 Nashik
- 2.1.3.9 Navi Mumbai
- 2.1.3.10 Noida
- 2.1.3.11 VIT
- 2.1.3.12 Vallabh Vidya Nagar

3. Market Segregation:

3.1. OGX and AIESEC Member:

A contract between two or more **Entities** that share the same city market needs to be drafted and signed between the **Entity** Heads of both the **Entities**. The contract shall define the market segregation for all AIESEC related operations within the city. It is to be reviewed and renewed every year on or before the 1st of February.

In the case where the **Entities** do not sign the document within the deadline, the OPSC will review and make a decision regarding the market segregation. In case of a market breach after the final segregation, the process and consequences mentioned in the ESC sub-document will follow.

3.1.1 The market contract shall include clear terms and conditions of the Market segregation and the Case solving mechanism. Following that, it should state the universities and markets for each entity concerned separately. [Here](#) is the template for reference.

3.1.2 In case of a grey market/shared market between 2 or more entities, an entity can process an EP without permission only and only if the following conditions are met -

- A. The EP has graduated/is studying in a college which falls under the entity's market (to be decided by checking the region or by checking if it falls under the list of colleges/universities of the entity if there is a contract in place)
- B. The EP is living in the region which falls directly under the entity's market

3.1.3 For entities with shared regions and a contract signed for college lists, the EPs will be allocated on the basis of 3.1.2. A and B only. If Criteria A and/or Criteria B does not match, then the entity has to get permission from OPSC for the same as clause **3.1.4** applies.

3.1.4 In case of an EP who does not match the mentioned criteria above, they can be processed by either entity on a first come-first serve basis after getting the approval by OPSC in consultation with the respective MCVP over mail. Once the EP is in Accepted phase with one entity after OPSC's approval, they cannot be in the funnel for another entity.

3.2. iCX:

3.2.1. District/State Boundaries of the city would act as the exclusive market for an **Entity** if only one of them functions out of the said district, hereafter referred to as the market area.

- 3.2.1.1. The **Entity** would be solely responsible for servicing all clients/potential clients present in their market other than NEP Partners
- 3.2.1.2. No **Entity** will be allowed to raise a client/partner in the market area of another entity.
- 3.2.1.3. The Market Area would apply to all iCX & Non-iCX running LCs irrespective of the product/(s) run.
- 3.2.1.4. If a **Entity** is reported to have breached another entities market area, it will be applicable as grounds for market violation
- 3.2.2. For **Entities** present within the same city, A contract can be drawn up between the entities dividing up the area of iCX Servicing based on pincodes
 - 3.2.2.1. The Contract would explicitly mention the division of the Pincode areas serviced by the local entity
 - 3.2.2.2. The Contract can also mention shared Pincode areas if the entities agree upon the same wherein the process would be handled on a first-come, first-served basis
 - 3.2.2.3. The Contract is a strong recommendation from the OPSC; however, if **entities** don't see a need for the division, they will have to sign a complete shared area contract instead
 - 3.2.2.3.1. The Contract, in this case, would allow both **entities** to raise clients within their shared market on a first-come, first-served basis
 - 3.2.2.3.2. There would not be grounds for market violations between the **entities**
- 3.2.3. For **Entities** that lie in a distance of 30-100 KMs, the area division contract would be used by the entities to come up with lines of division of their markets if seen as required by the respective local entities.
 - 3.2.3.1. The Contract would consist of area & boundary lines division agreed upon by both parties for the future
 - 3.2.3.2. The area can only be limited to the common area between the entities & no secondary grey market or neutral market area
 - 3.2.3.3. In case the entities do not sign such a contract, the OPSC has the right to make recommendations of possible violations based on clause 3.2.1 of R_Quality Control & Assurance

3.2.4. In case an Entity would like to request to raise opens in the branch of a client they are already servicing within their own LC/City, they must get the OPSC/MCVP OPS to approve of the same

3.2.4.1. This would act as the only exception to clause 3.2.1 of R_Quality Control & Assurance

3.2.4.2. The Opportunity cannot be raised before approval by the above-stated parties and would count as a market violation

3.2.5.

3.2.5. For the case of any Gray Market, Disputed Market, Untapped Market or any other special cases, the OPSC can be contacted for their recommendation regarding the same

3.2.5.1 A Formal Request explaining the case must be mailed to the OPSC before taking any decision in regards to the same

3.2.5.2. The OPSC will conduct any further research or clarifications as they see fit.

3.2.5.3. The OPSC will send out a recommendation within 7 days of the request being mailed and further acknowledged

3.2.6. In any such case where within the Gray/Disputed/Untapped Market, any entity falling within the market decides to sign a Client/UR, the Client or UR and the resulting leads or benefits belong rightfully to the respective entity. However, before signing the MoU/Contract, OPSC should be sent a Formal Request over mail explaining the case post which OPSC can conduct any further research or clarifications after they see fit. OPSC will send out a mail of confirmation or way forwards within 7 days of the request being mailed and further acknowledged.

3.2.6.1 Once a client or a UR is being signed by any local entity from that particular gray market, the OPSC will notify all local entities who share the same market.

3.2.6.2. Once getting approval from OPSc for signing a contract in grey market area, OPSc needs to inform the respective entities sharing the same markets.

3.2.6.3. The respective entity needs to sign the contract within the next 2 weeks after getting approval from OPSc.

3.2.6.4. If the contract is not signed within the above time period mentioned in clause **3.2.6.3**, in that case, OPSc will investigate the case and only if it is valid the extension can be granted.

3.2.6.5. If the contract is not signed after the extension or within the time period, then in that case that particular UR will be considered a grey market and will be open to all the entities on the basis of first come first serve basis.

3.2.7. An entity will not be allowed to raise clients which lie outside of a 30 km radius of the existing market area of the entity. If they are approached by clients which lie outside of the range, it will need to be brought upto OPSC and the client would be raised by the nearest iCX-running entity.

3.2.7.1. This does not apply to existing clients with whom a contract has been signed before 04/07/22 or to clients which have been previously serviced by the said entity. However, OPSC still needs to be kept in loop about such clients.

3.2.7.2. An entity can choose to service a client outside of their market area only and only if (i) there is a nearest expansion entity of their own which does not run iCX and which can carry out the the delivery of the Partner Standards on the behalf of the Parent LC and (ii) The client specifically approached the Parent LC/Entity for a service.

3.2.8. For any National Entity Partner raised in an entity which does not run the allocated product, the nearest entity which runs the allocated product will be responsible for servicing the NEP. The entity which does not run the product will be known as the 'NEP Entity'

3.2.8.1 NEP Entity Responsibilities -

3.2.8.1.1 Catering to the EPs' Value Delivery and delivering the Exchange Standards to them, being the end responsible for the same

3.2.8.1.1 Meeting the NEP physically if required

4. Entity criteria for Product(ELD) Operations (oGV, oGTa, oGTe, iGV, iGTa, iGTe):

4.1. If an entity wants to run a specific product, they must have at least one separate Vice President

designated for that product in the initial proposed Executive Body OS for the year.

4.1.1 The Products of GTa and GTe can be the only products as an exception to the above, with prior approval taken from MCVP OD with OPSc in loop.

4.1.2 A Product VP cannot be on a dual role with an exchange support portfolio unless recommended by the MCVP OD.

4.1.3 An Entity Planning to run a new product in the upcoming LC Term must also adhere to the same

4.1.4 For any further concerns, MCVP OD and OPSc must be contacted prior to any changes announced or made

4.2. If a product VP exits the organisation under any circumstance, the entity should report the same to the MCVP OD and OPSC within a week.

4.2.1 The new VP must be selected within a week post the resignation/termination based on a recommendation provided to the LCP from the MCVP OD, keeping in mind firmly the entity scenario and looping in OPSC

firmly the entity scenario and confirmed via the OPSC An email must be sent to the Focus Commission within a week of the new VP being selected upon OPSc's confirmation.

4.2.2 Post Selection the MCVP OD, respective Commission Head and Entity must ensure that the transitions of the role are complete within two weeks post selections and consistent support provided through the same by the MC.

4.2.3 After the transitions are completed, the selected VP shall have a checkpoint with the Product MCVP and close support for at least one month moving forward

4.3. An Entity can only shutdown a product at the end of the LC Term based on Review by the OPSC, MCVP OPS and/or MCVP OD.

4.3.1 The **Entity** must submit a request a minimum of one week before NPC which would be reviewed based upon which a decision would be taken. The request will be considered only if the following criteria apply:

4.3.1.1 The **Entity** achieving less than 30% TvsA in the LC Term

4.3.1.2 No Growth from the previous LC Term to the current LC Term

4.3.1.3 The OD Model Operational Index for the Product is lower than the current national average

4.3.1.4 There is no dedicated Product VP in the proposed EB OS of the Year

4.3.2 The Above request would be reviewed and the confirmation shall be given at most one week after NPC in order to finalise the reformed EB OS

4.3.3 No Entity can stop running a product in the middle of an ongoing LC Term and may be subjected to a Mandate fine ₹5000 if found to do so.

4.3.4 An Entity must run operations in the given product till the end of the current LC term even post the change being legislated at NLS

4.4. An **LC/Parent LC/Entity** planning to start a new product for **themselves/their Expansion** can plan to do so on fulfilment of the following:

4.4.1 A Preliminary Report to be submitted to the OPSC, MCVP OPS and/or MCVP OD (**and MCVP Expansions in case of an Expansion entity**) at least seven days before NPC and 2 weeks post MNC which would include :

4.4.1.1 Formal Request and intent for Opening the product in the upcoming LC Term

4.4.1.2 Proof of Achievement of at least 50% TvsA for the LC in the current term

4.4.1.3 Proof of an OD Model Operational Maturity Score of at least the benchmark set

at

the start of the MC Term

4.4.1.4 HR Plan consisting of a dedicated VP, a minimum of 2 Team Leaders and 6 Members

4.4.1.5 Market Research Report: The Report would include but not be limited to:

4.4.1.5.1 Customer Persona

4.4.1.5.2 Focus Colleges (for oGX) /Client Bases (for iCX) for the Year

4.4.1.5.3 Product Operational Plan for the year

4.4.1.5.4 Organic Demand (If Applicable)

4.4.2 After the Submission of the report, the **Entity** shall receive verification from OPSC, MCVP

4.4.3 After Verification and Selection, the OPSC will legislate the approved entities running the products in Operations Sub-Document

4.4.4 The Products can only be legislated Twice in an LC Terms 30th of June of the respected year and 31st of December of the respected year.

4.5. The following Opportunity Auditing Mechanisms would be followed by the various incoming exchange products at a national level & would be subject to regular updation as required.

4.5.1 For iGV:

4.5.1.1 [Opportunity Auditing Form](#)

4.5.1.2 [Opportunity Auditing Backend](#)

4.5.1.3 [Opportunity Slots Addition Form](#)

4.5.1.4 [Opportunity Slots Addition Backend](#)

4.5.1. For iGTa/Te:

4.5.1.1. [Opportunity Auditing Form](#)

4.5.1.2. [Opportunity Auditing Backend](#)

4.5.1.3. [Opportunity Slot Addition Form](#)

4.5.2. The above auditing mechanisms were last updated in March 2024

4.5.3. The Auditing Mechanisms must adhere to the guidelines provided in the APIP as recommended by the ECB for opportunity auditing.

4.5.4. There should be a Final Opportunity Auditing Guidelines Booklet from the ECB available to all Entities for the process of auditing. All the guidelines mentioned in the booklet must be adhered to and ECB can reject Opportunities only if the Entity's Opportunity is not adhering to the mentioned Guidelines in said booklet. In case of ECB rejecting an Entity's opportunities due to reasons not mentioned in said booklet, the concerned Product MCVP is liable to publish the Entity's Opportunities on their own within 24 hours after making the required changes. ECB is also required to mention the reasons in the Auditing Guidelines Booklet.

4.5.5. The ECB is liable to publish Opportunities within 24 hours once they have been audited and approved. In case of rejection, the ECB is required to communicate the relevant feedback to the concerned Entity within 36 hours of the Opportunity being submitted for auditing.

4.6. Any changes to the final EB OS (confirmed by the entity as of AGM) would have to be made to the AIESEC in India EBs sheet by OPSc after prior notification from the entity. The notification to OPSc needs to be made via mail **within 7 days** from the change in EB OS. (Change in EB OS can be resignation of a VP, internal restructuring of the EB)

5. [Recommendations/Permissions](#)

For all recommendations/permissions which are to be asked by any entity, [this Form](#) will be used as the mode of raising a query. Post which OPSC will get back to the entity with a response within 7 days over mail.

- 5.1.** This includes the following topics/areas of concern but are not limited to - Cases related to oGX/iCX Operations, cases related to EB OS Recommendations/Resignation Notifications, cases related to approaching grey market leads

6. [EwA Phase Management](#)

6.1. Introduction

- 6.1.1.** Each initiative to be considered part of the Engagement with AIESEC phase must meet the principles defined in this section of the AIESEC Portfolio Internal Policies (APIP).

6.2. EwA General Principles

- 6.2.1.** The activities, programs and products of the EwA phase are referred to as Powered by AIESEC.
- 6.2.2.** The activities, programs and products of the EwA phase are aligned to the Blue Book.
- 6.2.3.** The activities, programs and products of the EwA phase are tied to our core as an organization and are related to one of the following themes:
- 6.2.3.1.** *Peace and Fulfilment of Humankind's Potential*
 - 6.2.3.2.** *Youth empowerment*
 - 6.2.3.3.** *Leadership development*
 - 6.2.3.4.** *Cross-cultural understanding*
- 6.2.4.** The EwA Initiative must have a component of Introduction to AIESEC, meaning a space where the attendee or participant receives information regarding:
- 6.2.4.1.** *Our organization (explanation of the AIESEC Way)*
 - 6.2.4.2.** *Our Leadership Development Model*
 - 6.2.4.3.** *Our ELD Programs*
- 6.2.5.** EwA initiatives are spark leadership concept programs that respect a cycle of leadership concept awareness, they are not events.
- 6.2.5.1.** Attraction activities organized to promote any of the existing AIESEC programs are not EwA Initiatives
- 6.2.6.** Any EwA Initiative must not overlap with ELD programs' by:
- 6.2.6.1.** *Key activities of ELD programs*
 - 6.2.6.2.** *Value proposition of ELD programs*
 - 6.2.6.3.** *Brand elements of ELD programs (color,name,logo - refer to bluebook)*
- 6.2.7.** Any EwA initiative must have youth between the range of 18-30 as a target customer. The youth is considered 30 until his/ her/ their 31st birthday.
- 6.2.8.** Any entity EwA initiative must be submitted, reviewed and approved by EwA Operations Responsible in AI before running it.

- 6.2.9. The EwA initiative should direct the participants or attendees towards our ELD programs (GTa, GTe, GV, Membership) with a clear call to action.
- 6.2.10. The EwA initiative should allow the organization to gain recognition as a leadership development organization.
- 6.2.11. The EwA Initiative should have a financial planning that results in a positive ROI for the entity.
- 6.2.12. The EwA initiative should provide a positive financial outcome with a clear income distribution.
- 6.2.13. All EwA initiatives need to be reported in GFB Survey, ECB Audit Report and SOGA with the required specifications.
- 6.2.14. Any new initiative created by entities, can not repeat/duplicate already existing global programs in EwA.
 - 6.2.14.1. For an EwA initiative to be considered different from the global programs, it must comply with:
 - 6.2.14.1.1. Having a different Business Model
 - 6.2.14.1.2. Proposing different key activities
 - 6.2.14.1.3. Using different brand elements
 - 6.2.14.1.4. Having a different agenda
